■ **Brake Truing Device: Model # T100**

Designed for truing diamond and CBN wheels rapidly, effectively and with minimum loss of diamond. Idea for truing the following diamond and CBN wheel types:

1. Straight wheels with diamond in the periphery as used on chip breaker, tool and cutter, surface and cylindrical grinding machines.
2. Cut-off wheels.
3. Internal grinding wheels.
4. Cup wheels with diamond in the rim as used on vertical spindle surface grinders.

One 75 x 25 x 12.7 **KINIK** C60-MV grinding wheel is included with each Brake Truing Device.

This wheel is satisfactory for general purpose truing of diamond wheels ranging in grit size from 100 to 180. For other truing requirements, please contact **KINIK** representatives.
